KEY FEATURES

Trusted AUDIX Sound

Compatible with NCEC and NCTH capsules. Maintains Audix VLM™ transient response and natural vocal clarity.

Swappable Capsules

"S" thread mount accepts Novacore capsules and compatible third-party capsules.

Metal Construction

Durable all-metal body for professional use.

Flexible Battery

Operates on 2x AA batteries or 1x NCLB rechargeable lithium-ion cell. Recharge via USB or Novacore charging station.

Intuitive Controls

Display shows battery status, RF signal strength, group and channel settings, and menu navigation.

AES-256 Encryption

Secure digital transmission with fast IR sync pairing.
