## THE RIGHT CHOICE

Designing an AV-enabled conference room or classroom that truly delivers an in-person audio experience for all attendees starts with choosing the right microphones.

Audix offers a complete range of install microphones, enabling flexible and scalable designs that are easy to deploy and commission. Available in both analog and Dante/AES67 versions, Audix install microphones share a common voicing and are optimized for maximum speech intelligibility.

Need more coverage? Just add another microphone.

Designed, assembled and tested in the USA. Audix install microphones. The right choice.
